Experience

Front End Developer Intern

Lyrax code • Remote

04/2024 - 12/2024

I had the opportunity to intern as a frontend developer at Lyrax , a cutting-edge tech startup. This internship was a invaluable learning experience that allowed me to apply my skills and knowledge in a real-world setting.

Responsibilities

As a frontend development intern, my responsibilities included:

- Collaborating with the design team to translate designs into functional and responsive web pages
- Writing clean, efficient, and well-documented frontend code (HTML, CSS, JavaScript)
- Developing and implementing new features and components for the company's web application
- Participating in code reviews and contributing to the improvement of the codebase
- Troubleshooting and debugging frontend issues

Through this internship, I gained valuable skills and knowledge in:

- Frontend development best practices
- Responsive web design
- State management using Redux
- Modern frontend build tools and workflows
- Collaborative development and code review processes

Skills

ReactJs HTML CSS JavaScript Typescript

Extra-curricular Activities / Projects

1. Fraij. [\[Fraij\]](#)

Project Overview

The goal was to design and develop a responsive website that displays current and forecasted weather conditions for various locations worldwide. The website had to be user-friendly, visually appealing, and provide accurate weather data.

Technologies Used

- HTML5
- CSS3
- JavaScript (ES6+)
- OpenWeatherMap API
- Git

2. Grevt [\[Grevt\]](#)

Project Overview

The design studio required a visually stunning website to showcase their portfolio, services, and expertise. The website needed to be responsive, user-friendly, and reflect the studio's creative and innovative approach.

Technologies Used

- HTML5
- CSS3

- CSS3 (Sass)
- JavaScript (ES6+)
- React js
- Git
